Report of President Perkins, of the International Union.

The Amount of Wages Received Per Year is \$41,767,989.

The Value of the Product is \$129,193,275. Since Last Report 458 Difficulties Had to Be Adjusted, Involving 7,174 Members and 5,412 Nonunionists.

DETROIT, Mich., Sept. 29.—At the afternoon session of the International Cigarmakers' union President Perkins read his report, which was an exhaustive one. The report shows that the cigar trade has not materially improved, although there has been a slight increase in the output. The total amount of wages paid out per year is \$41,767,989 and the value of the product is \$129,193,275.

During the past three years the receipts of the international officers were \$87,111, and the expenses \$85,572, leaving a balance of \$1,539 in the treasury. The larger items of the expense were salaries of clerks, organizers, label agitators and printing of the Journal and annual reports.

Since the last report the international union had 458 difficulties to adjust, which involved 7,174 members and 5,412 nonunionists. One hundred and seventy-nine of these were adjusted successfully, 18 compromised, 20 declared off, 87 disapproved and 44 are still in progress.

Of the remainder 51 were lost outright, in 18 the cause removed, and 49 were ended by members obtaining employment elsewhere. The strike expense during this period was \$113,461. President Perkins advocates an increase in dues of five cents per week, which would add nearly \$75,000 to the yearly income, and also advocates a federation of labor unions which shall recognize the autonomy of each component part, and also an eight-hour day, with a Saturday holiday, or a six-hour day without the holiday.

## INDIAN AFFAIRS.

Commissioner Browning Submits His Annual Report—No Outbreak Has Occurred During the Year.

WASHINGTON, Sept. 29.—Commissioner of Indian Affairs Browning has submitted his annual report. He says that with no outbreaks during the year the education and civilization of the Indians has progressed and the main effort now is and for years must be to get the Indians on his allotment so as to become self-supporting. The Indians are becoming adepts in handicrafts and received last year in pay from the government over half a million dollars for work done. The commissioner reviews the steps taken by congress to extinguish the claim of the Ogden Land Co. to the lands of the Seneca Indians in the extreme northwest, is still troublesome because of the infringement of the whites upon Indian rights which have not been successfully protected. Education has progressed rapidly in the government and industrial training schools. There are enrolled in all schools 23,323 pupils. The commissioner praises the work of the field matrons. He suggests that the commissioner appointed to treat with several tribes of Indians for their lands be continued to clear up the work of making sale of their lands. Nearly all applications for Indians for exhibition purposes have been refused. The commissioner lays stress upon the need of legislation restraining the sale of liquor in Indian reservations.

### NO ABATMENT

In the Epidemic of Holdups, Murderous Assaults, Etc., at Cleveland.

CLEVELAND, O., Sept. 29.—There is no abatement of the epidemic of crime in this city. Hold ups and murderous assaults upon peaceable citizens continue, and the startling audacity of the desperadoes and the united methods of doing business astound even the police. Since Monday night 25 houses have been entered. Citizens are wrought up to such a degree of alarm that the streets are practically deserted by 7 o'clock in the evening and the unfortunate who are compelled to be out late ride home in cabs or engage bodyguards to accompany them. The police are just simply unable to cope with the criminals, and, although supposed leaders have been arrested, the depredations increase in number to an alarming extent. Houses have been robbed within a few hundred feet of the central station and pedestrians are held up in the very heart of the city almost before dark.

James Gintley started for home Monday morning about 1 o'clock. As he turned into the dark street leading to his home three masked men rushed upon him from behind trees. He was robbed of \$14, and because he grew indignant of speech his shoes were removed. The bakery wagon of Adolph Heiner was stopped by two men at 3 o'clock Monday morning and the driver relieved of \$23, after which the robbers helped themselves to some pies and cakes and then ordered the man to drive off, firing several shots after the wagon just to hurry him up. Garret Garrett, a newspaper man, was held up just before daylight near his home at 316 Prospect street. He was "broke" and the robbers divested him of his coat, vest and hat and then gave him a quarter to buy a drink.

## TERRIBLE TRAGEDY.

Jos. Webber Shoots His Little Brother While Playing With a Revolver.

CINCINNATI, Sept. 29.—John Henry Weber, a five-year-old boy, was accidentally shot and killed Tuesday morning by his brother, Joseph T. Weber, aged 16, at the family residence, Corryville. The boys were playing at their home with a toy revolver, pointing it at one another, when the eldest boy secured a bulldog revolver and placing it at the breast of his brother, pulled the trigger, discharging the revolver, the bullet entered the breast between the fourth and fifth ribs. The boy fell to the floor which attracted the attention of his mother, who hastened to his side. Dr. H. I. Woodburn was summoned and when he arrived he found life extinct and ventured the opinion that death was instantaneous.

The boys have always been in the habit of playing together, and there is no doubt but that the eldest boy was unaware of the fact that the revolver was loaded. Coroner Haerr was summoned and set the inquest for 3 o'clock. When he examined the weapon, he found that there were still remaining in the chambers three cartridges. The father of the boys is a carpenter by trade and is almost distracted over the sad affair.
